Summary

I am a fourth-year Computer Science and Engineering student at KUET, passionate about mobile app development, AI, and DevOps. I love building impactful mobile applications, integrating intelligent AI features, and creating scalable, automated deployment workflows using modern cloud technologies.

Projects

Nongor

- Offline AI flood companion with signed SOS, shelter routing, first aid, and emergency translation, powered entirely by on-device Gemma 4.
- Has earned 175+ stars on GitHub.
